Portfolio reflections/description pages			x		
Contact page				x	
<b>Reflections</b> (description of portfolio pieces)					
Content of reflections appropriate	x				
Project images are high quality				x	
Spelling and grammar are correct					x

What was your overall first impression of the website?

Clean and simple design that is easy to navigate.

Did you have any technical difficulties as you navigated through the pages and displayed the projects?

Hovering over links in the main page, they become too hard to read (dark text on dark background)

What do you feel are the most effective design elements of this web portfolio?

Choice of colors and using appropriate images.

What would you suggest be changed with the design or content of this web portfolio?

The description pages have content that is pushed to the left side of the page without enough left margins, while most of the page (center and right) is empty. Use some of that empty space.

The job experience section has 4 progress bars without any indication to which bar belongs to which section below.
