Reflections (description of portfolio pieces)					
Content of reflections appropriate				x	
Project images are high quality					x
Spelling and grammar are correct					x

What was your overall first impression of the website?

Cooper did a great job with the color and layout of his site. I thought it looked really professional.

Did you have any technical difficulties as you navigated through the pages and displayed the projects?

I had no technical difficulties during my time navigating through Cooper's site.

What do you feel are the most effective design elements of this web portfolio?

I thought that spacing that Cooper used was really used well. This helped in the professional look that I thought his site had.

What would you suggest be changed with the design or content of this web portfolio?

He didn't have a footer which was kind of strange since almost every site has a footer. I think that it looks good but would be more familiar with a footer.
